INFO3315 Human-Computer Interaction

Worksheet Week 11 – Working on Poster and Demo

In this tutorial you will continue working on your group projects. This tutorial is a great chance for you to catch up on your projects as well as to receive feedback from your tutors.

Part 1 – Prepare your hi-fi prototype and 3 user tasks for the tutorial. (10 min)

Part 2 – Group Project: Demonstration and Poster (55 min)

A. Prepare demonstration

- Computer-based prototype (hi-fi prototype)
- 3 user tasks

B. Prepare posters

Browse the example posters on Canvas. Work together with the group to come up with an idea for the poster. Outline the story, structure, and other necessary details of your posters.

Part 2.1 – Feedback (20 min)
Present your idea of the poster's design first to your tutor for feedback. Address the feedback accordingly.

Part 3 – QA (15 min)

At the end of the workshop, the group should have a clear view of their actions throughout the project. You will be expected to demonstrate your group's prototype at Week 12 Workshop.
